Supplement curriculum with course work in advertising or business. Complete an internship in an advertising agency. Work on the campus newspaper in the advertising division. Learn to work well in team environments and to communicate your ideas effectively. Develop the ability to meet deadlines and work under pressure. Be prepared to move to larger cities for the most job opportunities. Gain experience with a variety of media. Create a strong portfolio of a work samples.
**GENERAL INFORMATION**

- Graphic designers work in countless industries on a wide array of projects. Learn the career options, skills, and experiences to work in specialized areas.
- Approximately 20% of graphic designers are self-employed. Freelance designers must develop strong networking and sales skills, as well as flexibility. Schedules may vary according to demands and workloads.
- Graphic designers are typically artistic and imaginative and must be able to tolerate criticism and direction in their design work.
- Successful graphic designers are in-touch with changing consumer preferences and react to new trends. They exhibit strong listening and communication skills, as identifying consumer needs is critical. They are effective problem solvers.
- Stay up to date on graphic design standards of professional practice and the changing technology required. Become familiar with several computer graphics and design software packages such as Quark, Photoshop, and Illustrator.
- This field is highly competitive. Many new jobs will be associated with interactive media and end user contribution to design. Consider taking classes in website design and animation to increase marketability.
- Be prepared to start entry-level and work your way up the career ladder. Take a first job based on the industry and type of design you desire to work with because work from your first job will comprise your professional portfolio. Continually update your portfolio.
- Student design magazines such as CMYK and Creative Quarterly solicit student work and host regular competitions. Try to get your work published.
- Join design organizations and societies such as The American Institute of Graphic Arts, The Society of Publication Designers, University and College Design Association, or the Society of Illustrators to maintain current knowledge of the field.

**AREAS**

**EDUCATION**

Higher education:
- Teaching
- Research
- Administration
- Student life publication departments
- Library sciences

Secondary:
- Teaching

**EMPLOYERS**

Four-year colleges and universities
- Two-year colleges
- Public and private high schools

**STRATEGIES**

- A master of fine arts or doctoral degree is preferred and/or required for full-time professorships.
- Create a portfolio for faculty review.
- Consider private consulting or operating a small design studio to complement classroom activities.
- Earn a master's degree in college student personnel or information sciences to prepare for positions in those areas.
- Not all high schools offer graphic design courses/programs. Be prepared to relocate or advocate for program development.
- To teach high school, obtain teaching certificate/license. Requirements for certification/licensure vary by state. Seek multiple certifications to increase employability.
- Get involved in student organizations related to the art and design such as Visual Arts Committees.
